18 The Special Revenue Officer, Kadur and Hasaan Districts, may be asked why no information has been furnished by him in regard to many of the specified heads.

19 In the Kadur and Hassan Districts, even of the measures enumerated in para 6 of Government Order of 24th February 1914, as requiring primary attention, progress made during the half year, in regard to some is not satisfactory.

20 In the case of one well in the Kadur District (No.14 Chatmakki) the expenditure incurred seems to be far in excess of the estimate.

21 A Government Order may issue briefly reviewing the reports.

Submits Progress Report re:
the Measures undertaken under the
M.I. Sch in Hassan & Kadur
Dists during the Month of November
1915.

Enc. to Secy. 40-15-5 7

A Brief Report on the Progress of measures undertaken under the direction of the Malnad Improvement Committees of the Hassan and Kadur Districts during the month of November 1915.

------&------

Executive Staff: There was no change in either of the District during the month under report.

2. M e e t i n g s: The third meeting of the Kadur District Committee was held on the 29th November 1915. That of the Hassan District Committee and a Special Meeting of the Kadur District Committee have been fixed to be held on the 21st and 22nd December 1915 respectively.

3. Clearance of Lantana, etc. No fresh estimates for works under this head were sanctioned during the month in either of the Districts but payments to the extent of Rs.28-8-0 & 137-10-0 were made towards the sanctioned works in Sangameswrapet and Banagere villages in the Kadur & Hassan Districts respectively. As the villagers were engaged in harvesting operations the ryots have not done much in this direction in both the Districts.

4. Well Works: Estimates amounting to Rs.8,870/- were sanctioned during the month towards thirteen fresh wells in the Kadur District as also an estimate for Rs.80/- for conducting the preliminary Survey and Levelling operartions in respect of the Indavar water-supply project. Payments to the extent of Rs.657-0-1 and 113-8-0 were made in the Kadur & Hassan Districts respectively during the month.

5. Drainage Works: One work at an estimated cost of Rs.494/- was sanctioned during the month for cutting the Fort birm and filling the ditch in the Vastara Village, Chikmagalur Taluk and Rs.135-9-0 and 116-15-9 were paid towards works under this head in the Kadur & Hassan Districts respectively.

6. Road Works: No fresh estimates were sanctioned for works under this head during the month in either of the Districts and amounts of Rs.219/- and 33-14-0 were paid towards the sanctioned works in the Hassan & Kadur Districts respectively.

7. Vaccination: The number of cases conducted by the three

Special Vaccinators in each of the Districts of Hassan and Kadur is 80 and 50 respectively during the month.

8. **Midwives:** The two special midwives at Aldur and Lakvalli in the Kadur District attended to 2 and 1 labour cases respectively during the month. No special midwife was employed in the Hassan District.

9. **Distribution of Quinine:** 4675 & 1250 tablets were distributed in the Kadur and Hassan Districts respectively during the month throughout the Malnad tracts of both the Districts.

10. **Shifting of Villages:** The marginally noted four villages were dealt with under this head in the Kadur District during the month, making the total number of villages in the Kadur and Hassan Districts 20 and 21 respectively. In some of the villages, the ryots are already constructing houses on the newly elected sites either for extension or shifting as the case may be.

1.Mahagid,
2.Malalur,
3.Thegadur
4.Thenur.

No. D 3524

Office of the Malnad Improvement Committee, Shimoga District.

Dated Shimoga, 25th March .1916.

From

S.N. Appanna Iynegar, Esq., B.A., B.L.,
Special Revenue Officer,
Malnad Improvement Scheme,
Shimoga District.

To.

D.M. Narasinga Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
General Department, Bangalore.

Sir,

Adverting to your letter No. 5688-9 Sany. 40-15-7 dated 5th February 1916, I have the honor to submit herewith in dupli a report showing the work done and the progress achieved in regard to each of the measures to be undertaken by the Malnad Improvement Committee in the Shimoga District for the half year ending with December 1915.

2. As the Heads of Departments had to be consulted in the matter of the initiative taken by them as required by para 12 of the Government Order dated 24th February 1916, there was some delay in the submission of the half yearly report. No reply has yet been received from the Inspector General of Education in regard to the action taken by the Education Department as per above order.

I have the honor to be,
Sir,
Your most obedient servant,

S. Appanna Iyngr

Special Revenue Officer,
Malnad Improvement Scheme,
Shimoga District.

GPB—100,000—29-7-14

IV 2/3 Mr 1915-16

From The Special Revenue Officer,
Malnad Improvement Scheme,
Shimoga District.

To The Secretary to the Government
of Mysore, General Department,
Bangalore.

Dated 25th
Despatched 25th March 1916.
Received
General No. 83
No.
Enclosure No. 2

S U B J E C T.

Submits the half yeaarly report, in duplicate of the Malnad Improvement Committee, Shimoga for the half year ending 31st December 1915.

Report on the progress of the measures undertaken by the Malnad Improvement Committee, Shimoga District, for the half year ending with 31st December 1915.

Committee.

Mr. Anandrao. S. Sirsi who was in charge of the office of the Malnad Improvement Committee, Shimoga, since the introduction of the Scheme was transferred to the Revenue Department and was succeeded by the undersigned on the 11th August 1915, as per Notification No.G. 1201 G.M. 82-15-5, dated 27th July 1915.

The strength of the Committee was raised from 12 to 14 members inclusive of the Chairman and the Secretary, as per, sanction conveyed by Government in their order No. 3322-33 Sanitary 39-15-2 - dated 3rd November 1915. There were - three meetings of the Committee during the half year under report, and the --- attendance of the members was uniformly satisfactory.

Area under the operationd of the Malnad Improvement Scheme.

The Kasaba and Benkipur Hoblies of the Shimoga Taluk, the whole of the - Kumsi Sub Taluk, 17 villages of the Honnali Taluk and 38 villages of the Channagiri Taluk were ordered to be brought under the operations of the Malnad Improvement Scheme, by Government, in their Order No. 1175-9 Sany 103-14-8 dated the 11th August 1915.

Work done during the past official year.

Till the end of 1914-15, works costing nearly Rs 17,000 were taken up for execution. Progress made during the year in respect thereof amounts to nearly Rs 8,600.

WORK DONE DURING THE YEAR.

Measures.

Clearance of rank vegetation and en-

4. The Committee, agreeing with the views of the Government in the matter of the use of Public Funds to restricted purpose, made no provision in the budget for the current year towards the cost of the clearance of lantana. The work was undertaken by the villagers themselves under the supervision of the executive staff employed under the Committee. The work done by the villagers during the half year under report is estimated at Rs 1,760. The number of villages dealt with during the half year is 65, the total number dealt with -- since the beginning of the Scheme being 169.

A special recommendation was made by the Committee towards the execution of the clearance of lantana in the -- Kallurkatte Town Municipality, out of the Malnad Improvement Funds, in view of the limited resources of the said -- Municipality and the Government were in their Order No. 4150-2 Samy 70-15-2, dated 9th December 1915, pleased to

to sanction the proposal of the Committee. A sum of Rs. 80 was paid on this account out of the Malnad Improvement Funds for the current year, the work having been executed during the previous year.

Drinking water wells.

(a) Sinking.

(b) Keeping them pure.

5. A sum of Rs. 9,000 has been provided for in the budget of the Committee for the current year towards the sinking of new wells. It was decided to grant wells generally to villages which were proposed to be shifted owing to the insanitary condition of the present locality, and the sinking of 11 wells at an estimated cost of Rs. 8,014 was sanctioned up to the end of December 1915. The Committee has a large programme of well works, mostly for the villages proposed to be shifted There are at present 21 cases of shifting of villages. Estimates for sinking of 4 wells at a cost of Rs. 2,678 have been since sanctioned. A reference has been submitted to Government for the sanction of an additional allotment of Rs. 5,000. The sanctioned works are let out on contract and they are in progress.

16 well works which were sanctioned in the previous years are also in the various stages of progress, and a sum of Rs. 4,000 was provided in the budget towards the cost of these works. Every endeavour will be made to complete these works before the close of the official year.

Instructions have been given to the

the executive staff to take action - against any infringement of the Village Sanitation Rules with regard to drinking water wells and needful steps are being taken in this direction.

The sinking of wells by private -- persons for public use is also being encouraged through the Executive Staff of this Department. The construction of a well at Havinakoppa village in the Nagar Taluk has been so taken up and the work is in progress. The value of work done till the end of December 1915 is estimated at Rs 37-8-0.

Timber facilities for house building.

6. One hundred and eighty eight - applications for the grant of licenses for timber for building purposes were received during the half year under - report, and 143 of these were disposed of leaving a balance of 45. A ~~reference~~ recommendation was made to Government in the matter of empowering Deputy Commissioners to make free grants of timber in deserving cases and final orders ~~were~~ have been received recently sanctioning the proposal of the Committee

Improvement of drainage.

7. Two estimates, one for filling up insanitary pits at Punedahalli and another for opening of check drains at Sampalli, both in the Sorakarpur Taluk, were sanctioned during the half year, the aggregate amount of the estimates being Rs 135. Besides this, the villagers are also encouraged by the Executive Staff under

the

the Committee to take up this work at their own cost. Such work at an estimated cost of Rs 1,301-15-0 in 21 villages was executed by the villagers themselves at the instance of this Department. for the half year under report.

Keeping paddy fields away from residential areas.

8. Three villages were successfully dealt with till the end of December 1915. Action in this direction is being taken by shifting villages, which, by their proximity to wet lands and other insanitar conditions, are unhealthy, and where, -- people are desirous of moving away from their present insanitary localities. During the half year under report, 21 villages have thus been selected for being shifted. Free grant of building materials is absolutely necessary for the success of this measure. Government have however, recently been pleased to sanction the recommendation of the Committee in their Order No. 6394-9 Sany. 110-15-3 dated 1st March 1916.

Separate accommodation for cattle.

9. The dangerous effects of tethering cattle in dwelling houses are being brougl home to the minds of the rural folk by means of popular talks and conferences, and the ryotas are being encouraged to build separate sheds for cattle. Members of Taluk and Hobli Committees for the Improvement of the Malnad have interested themselves in this important matter, and have in some cases set examples by providing separate accommodation for cattle. This practice is being invariably insis

upon in all cases of formations of new villages and shifting of old ones.

Spreading of sound ideas about sanitation etc.

10. A series of short atricles, treating on Sanitation and other rudimentary matters, which every malnad ryot ought to know for his betterment, were contribut from time to time at frequent intervals in the columns of the local kanada weekly "Shimoga Vrittanta", and 500 spare copies of one of these contributions were got up in a leaflet form and circulated free among the rural classes. The Special Sanitary Officer has devised an effective mode of educating the masses by getting some ballads composed on (1) Plague (2) Cholera (3) Malaria and (4) Fatalism. This experiment has proved quite successful, wherever it was tried. Steps will be taken to continue and amplify the same. His leaflets on "Food", "Pneumonia", -- 'Small-pox", and "Vaccination" are being translated and will be printed and -- circulated broadcast.

Popular talks in villages and in Conferences together with the organization of Taluk and Hobli Committees have formed distinct features of the work in this direction. Joint tours by the -- Special Revenue Officer and the Special Sanitary Officer, wherever possible, have borne good results in this connection.

PREPARATION OF SCHEMES.

Travelling dispensaries.

11. The conversion of the existing

Local Fund Dispensaries at Anantapur, Megaravalli and Humchadakatte into semi-itinerant ones was sanctioned by Government in their Order No. 4742-5 Medical 18-15-17 dated 31st December 1915. Priliminary points necessary for the starting of these institutions were settled in consultation with the Medical Department. The Sub-Assistant Surgeons posted to these Dispensaries have since arrived and the work will be started shortly. Further there is a proposal to arrange for ~~two~~ weekly visits by the Sub-Assistant Surgeon of Kumsi to Haranahalli Hobli as none of the three semi-itinerant Dispensaries will include this portion under its operation.

Distribution of

12. Ninety three thousand two hundred and six quinine tablets and one thousand ~~and~~ two pills of Esanofele were distributed gratis during the half year throughout the portions of the District under the operation of the Scheme. These tablets are very popular, and the demand for them is increasing from day to day. Indents for the supply of quinine tablets are being received from all parts of the Malnad and they are all being promptly attended to. The supply of the drug in the office being short, an additional supply has been indented for from the Medical Stores. A liberal provision of Rs 2.000 was made by the Committee in the

than four could be trained at a time. As regards nurses, no action can be - taken in the matter till the proposed Maternities are opened in important - centres in the Malnad. Private efforts are being stimulated to at least find funds for maternity buildings in -- Tirtahalli and Nagar Taluks.

Expansion of communication.

(a) Railways and tramways.

15. The proposals of the District Board for constructing a railway from Shimoga to Sagar, Tirthahalli etc. are pending the sanction of Government. The necessary guarantee by means of - public subscription has mostly been realised and the Committee feels that this work has urgently to be taken on hand.

(b) Roads.

The Committee resolved that independent of, and in addition to other necessary measures to be devised for improving the economic condition and the industrial development of the Malnad, renewed -- efforts be made towards the expansion of communications in the District as one of the surest means of bringing about the desired result and that for this -- purpose, the District Board be urged again to obtain the early sanction of Government to the programme of roads submitted to them. The Committee also added some more roads to the above programme. Further action will be taken on receipt of -- Government sanction to the proposal. In the meanwhile the Committee has resolved

resolved to make a beginning this year by alloting a sum of Rs 2,000 for the opening of a road from Nagar to Sampekatte and the proposal having -- been sanctioned by Government, the work has been taken up on hand. Besides main road works, the ryots were encouraged to take up minor village road works by themselves and work costing Rs 1,200 was done by private agency during the half year under report at the instance of this Department.

16. This question has been engaging particular the attention of the Committee during the half year under report. Owing to the wide publicity given to the proposal of the Committee with regard to the concessions for intending settlers in the Malnad, applications have been received for two settlements, one at Nagavalli and the other at Mumbal both in the Sagar Taluk. The grant of lands for cultivation on progressive tenure is one of the important facilities to be afforded to the new settlers. Needful recommendations have been recently submitted to Government for sanction in this matter and the orders are being awaited. Further applications have since been received for - settlements in Shimoga and Sagar Taluks and there are prospects of applicants coming in for lands in the other taluks of Nagar, Tirthahalli and Kumsi.

Improved registration of vital statistics.

17. It has been finally decided by Government in their Order No. 1025-25 Sanitary 75-13-3 dated 5th August 1915 to introduce a bill shortly into the Legislative Council on the lines of the Madras Act III of 1899 so as to make, the registration of births and deaths compulsory. Scrutiny of births and deaths register by the officers and officials connected with the Scheme is being -- exercised to ensure some measure of accuracy.

Relief of agriculturists from avoidable indebtedness.

18. The question of establishing State-Aided Land Banks for affording relief to the encumbered land-owners in the Malnad has been assigned to a sub-committee for investigation. With a view to give immediate relief in this direction the Government have been requested (1) to finance the existing Co-operative Societies in the Malnad with a lakh of rupees. Further, there is also a recommendation (2) to place a sum of Rs 20,000 at 4 % simple interest as fixed deposit in the People's Bank at Tirthahalli for a similar purpose and the orders of Government in the -- matter are being awaited.

Establishment of Model villages.

19. The attention of the Committee is mainly devoted to the shifting of insanitary villages.
provide at least one

in each thickly populated village at Government cost has been submitted to Government for sanction. Further the proposal to extend the scope of the Takavi Rules for the grant of advances for constructing houses and sinking wells is also pending the sanction of Government.

Facilities for cattle grazing, fuel and timber.

20. No real difficulties are ascertained to exist in the Malnad portions of this district regarding these matters.

Abatement of intemperance.

21. The District authorities of the Excise Department have been requested to check the evils as far as possible by a reduction in the number of arrack shops and by taking extra precautions against illicit tapping and distillation. The Education Departmen t was requested to permit Village Elementary School Masters being employed as lecturers during Sundays and other Holidays. The Inspector-General of Education has since complied with the request and fixed the scale of remuneration to be paid for each day of out-door work. The work has since been commenced in a few places.

Itinerant lecturers.

22. As stated in the above para, these Village School Masters will also serve the purpose of itinerant lecturers. Their business will be to infuse

knowledge

knowledge on all elementary matters and to warn people against their many social evils. These lectures will be delivered in accordance with a definite programme to be framed therefor in - consultation with the Committee and other non-official members.

Expenditure.

23. The amount spent out of the public funds during the half year under report is approximately Rs 8,976-12-6 as per details noted hereunder.

Cost of purchase of quinine and esanofele	Rs	706-12-6
Pay of Vaccinators		504- 0-0
Stipends to pupil midwives		60- 0-0
Clearance of lantana		80- 0-0
Establishment charges including miscellaneous expenses		7,626- 0-0
Total	Rs	8,976 -12-6

Besides, works of the estimated value of Rs 3,061 as per details note below were carried out by the ryots at the instance of the Department during the half year.

Clearance of lantana	Rs	1,760-0-0
Drainage and minor road works		1,301-0-0
Total	Rs	3,061-0-0

INVESTIGATION.

Increase of population in some villages.

24. According to the Census of 1911 391 villages showed an increase of - opulation out of 1,305 villages brought nder the Malnad Improvement Scheme. o find out the exact causes for such n increase, it is very necessary to have a more frequent census especially having regard to the fact that the Malnad tract is usually over-run by an influx of population from the West Coast in quest of labour.

Seasons of highest mortality.

25. It is generally in the months of June, July and August and again in November, December and January, that the mortality is highest in the Malnad. The cause of this is that people on account of their lowered vitality are unable to resist the rigour of the climate in its transitory period. Further, just after the mungar rains and before the out- break of the -- South West Monsoons, there will have formed many stagnant pools of water in which anophelines breed and spread malarial infection to the people, -- especially when their vitality has sunk to its lowest ebb. Then again, in the months of November, December and January, relapses of malaria occur which so lower the vitality of the people that they succumb to Pneumonia, Dysentery, Anemia and such like ailments

Effects of Bagani Toddy.

26. From enquiries made it is learnt that the Malnad villagers have suffered considerably in their stamina ever since the privilege of drawing their own Bagani Toddy was stopped. The concensus of -- opinion is that the old order of things should be renewed. It is also ascertained that the present system of resorting to costlier and stronger distilled liquors has been the cause of the financial and physical ruin of the Malnad ryot. The experiment of making Bagani Toddy available more freely may therefore be tried with advantage. In fact the feeling on this point in the Malnad is pronouncedly in favor of this proposal.

Relative vitality of the several classes.

27. As regards vital statistics it has at the outset to be observed that the present system of registration is - extremely defective and no safe and -- definite conclusion can be based thereon. At any rate, from a study of the figures available for the last two years the following general remarks are offered. The rate of mortality has been highest among the Hindus, particularly the Halepaikas and similar depressed classes. It is less amongst the Mohomadans and least among Christians. This may be said to be due to the fact that the Christia have cleaner habits of life and resort more freely to hospital treatment than the other communities. Economic causes

also contribute not a little to the high mortality amongst the other classes. A better system of registration of vital statistics is under the consideration of Government and when this comes into -- force it would be possible to get more reliable figures and draw definite conclusions.

Necessity for more frequent censuses.

28. As the system of registration of vital statistics is at present very defective, as the figures now obtained are not at all reliable, and as it is necessary to ascertain whether in any particular locality the population has really increased or decreased, and - further as there is a chance of confusion owing to temporary immigration of labour from the West Coast, it is highly desirable that in ~~Kaneshumari~~ localised areas a regular census be taken twice a year, once about the end of May or the beginning of June when all the outside labour will have left the Malnad, and again about the end of -- September or the beginning of October, when the people from the West Coast would have mostly arrived for the season Definite proposals with a detailed scheme will be submitted in due course.

Adaptation of Khaneshumari to indicate the increase or diminution of population.

29. The Khaneshumari Account is written up by the village officials in a reputedly ~~bad~~ hap-hazard fashion and as such it is doubtful if the present

present method would in any way be helpful to draw conclusive deductions about the increase or decrease of - population in any certain village. This account, if it has to serve any useful purpose for showing the change in figures with regard to population, should be capable of verification with the figures obtained from Births and Deaths Registers. This subject will be further investigated with a view to the submission of definite proposals.

DEPARTMENTAL SCHEMES.

Sanitary Department.
Malaria Re-search work.

30. The question of a Malarial Survey was all along discussed by the District Committee and a recommendatio was submitted to Government in the matt of providing the District Sanitary - Officer with a Laboratory at a cost of Rs 2,000. The Government have veteed the proposal of the Committee and - pointed out that a complete Disease Survey has to be undertaken without any extra cost to Government. As a complete Disease Survey of the whole District is not possible with the existin staff, a few villages selected by the District Committee for this purpose wil be taken up during the current year. The Sanitary Commissioner who was requested to intimate the initiative taken by the Sanitary Department, has

since in his letter No. 3400 dated 25th February 1916 intimated that - suitable action by the Sanitary Department might only be taken when the matter reaches the stage at which scientific investigation in a particular line is definitely indicated after the results of the preliminary Disease Survey are known. The result of the Disease Survey will be communicated to him in due course when the work has been taken on hand.

EDUCATION DEPARTMENT.

31. The Inspector-General of Educatic has been requested to intimate the -- initiative taken by the Education Department in these matters as required by para 12 of the Government Order of the 24th February 1914 and his reply is - awaited.

It is however ascertained from the District Inspector of Education thet 19 Government Schools and 26 aided schools were started by the Education Department since February 1914. Besides this, recommendation is said to have been made for the opening of 9 more Government - Schools, 2 Panchama Schools and 1 Kanada Girls' School during the year. 38 Night Schools have also been started in the - District. Further the Education Department has been addressed in the matter of providing new schools also in places where - they are in the opinion of the Special

Revenue Officer urgently called for.

Special Industrial Schools.

32. Sanction was accorded recently for the opening of an Industrial School at Shimoga under the Direction of the - Education Department. Efforts are being made to stimulate private enterprise to start combined Industrial Schools and Work-Shops at Tirthahalli and Kallurkatte on a Co-operative basis. Further action will be taken after the Societies are registered and accommodation provided for holding the Schools.

Medical Inspection of Schools.

33. The Special Sanitary Officer has been doing this work during his tours. During the half year under report such inspection was made in 12 villages.

Physical Culture.

34. On the recommendation of the Committee, a Gymnastic Instructor was -- appointed and attached to the Anglo-Vernacular School at Kallurkatte. Popular talks are being delivered by the Special Revenue Officer and the Special Sanitary Officer to people in this - direction.

Encouragement and development of Industries.

35. The proposals to start Industrial Schools at Tirthahalli and at Kallurkatte on a Co-operative basis comprise -- measures to be devised in the matter of encouragement of industries. The Registrar of Co-operative Societies in Mysore has been

been requested in the matter of registration of these societies. Further, there is also a proposal to start a rattan work shop at Agumbe at the cost of the Malnad Improvement Committee. The Director of Industries and Commerce has in his letter No. 3295 dated 23rd February 1916 intimated that separate proposals have been submitted by him to Government in the matter of development of industries in the Malnad.

(Stores Soci

36. Since the passing of the Government Order No. 8036-84 Medical 24-13-13 dated 24th February 1914 sanctioning the Malnad Improvement Scheme, 39 Co-operative Societies are learnt to have been started during the past year in the Malnad Taluks of Tirthahalli, Shikarpur, Nagar, Sagar, & Sorab in addition to 8 Co-operative Societies in existance in the Shikarpur Taluk at the beginning of the year. All of them are reported to be doing good work. They had a membership of 1544 and a working capital of Rs 26,015-6-9 at the end of 1914-15. During the current year 4 more societies in the Tirthahalli Taluk and 3 more in the Sagar Taluk have been started.

37. With a view to popularise the Scheme and to secure the active co-operation of the people by taking them into

into the confidence of Government, - especially regarding the practical working of the Scheme in the interior -- portions of the Malnad, Taluk Conference were held at Kallurkatte, Tirtahalli and ~~Shikarpur~~. Several important subjects were discussed at length from different points of view. Taluk and Hobli Committe have also been formed in these taluks so as to serve as branches of the -- District Committee.

Shimoga, 25th

Office of the Special Revenue Officer,
M.I.Scheme, Kadur and Hassan Districts,

No. 56
Report with 6 Statements & List.

Dated, Chikmagalur, 25th March 1916.

From

R. Nanaswamy Rao, Esquire,
Special Revenue Officer, M.I.Scheme,
Kadur and Hassan Districts, Chikmagalur:

To

D. M. Narasinga Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
General Department, Bangalore:

Sir,

Adverting to your letter No.5688-9/San.40-15-7, dated 5th February 1916 and subsequent reminder thereto, regarding the submission of a half yearly report of progress for the half year ending 31st December 1915, I have the honor to submit, herewith, a brief report showing the progress achieved during the afore-said half year in respect of various measures of operations under the Malnad Improvement Scheme in the Districts of Hassan and Kadur together with necessary statements giving statistical particulars relating thereto.

I have the honor to be,
Sir,
Your most obedient servant,

R. Nanaswamy Rao

Special Revenue Officer,
M.I.S.Kadur & Hassan Dists.

Chikmagalur

To D. M. Narasinga Rao Esq BA BL
Secretary to the Govt of Mysore
General Department Bangalore

Dated 25.4.

Despatched March 1916.

Received

General No. 66
No.

Enclosure No. Report with 6 Statements & list

Submits half yearly progress report regarding the M.I. Scheme in the Kadur & Hassan Districts

A brief report on the Progress of measures under the Malnad Improvement Scheme in the Hassan and Kadur Districts during the half year ending 31st December 1915.

---&---

I. Clearance of Lantana, etc.

Last year estimates amounting to Rs.4653-8-0 & 3258/- were sanctioned for works under this head in 14 and 16 villages respectively in the Hassan and Kadur Districts. But, later on, these and similar works in various other villages in both the districts were arranged to be got done by the ryots themselves, Government money being very sparingly spent only in cases where the villagers were unable to do the work themselves. The enclosed statement No.I shows the extent to which public funds have been spent on these works since commencement. Besides these, more than 350 acres in about 204 villages in the Hassan District and about 200 acres in 134 villages in the Kadur District have been cleared of lantana and other rank vegetation by the villagers themselves.

2. Supply of good drinking water:

Details of progress of well works undertaken in both the districts are given in the accompanying statement II. In addition to the sanctioned works and those pending sanction, some mofe wells have been suggested for urgent undertaking. Their estimates are in course of submission to the Deputy Commissioners and Chairmen. In addition to these wells works, larger water supply projects to Kigga, Kalasa, Sollebyle and Indavara villages in the Kadur District were under investigation. Estimates amounting to Rs.3260/- and 2672/- for Sollebyle and Indavara respectively were prepared and approved of by the Kadur District Committee.

3. Improvement of Drainage:

The annexed statement No.III shows the progress of works under this head. Although the estimated cost of the sanctioned works as also those pending sanction

exceeds the amount available in the current year's allotment, the excess will be met by way of re-appropriation out of the savings to be effected under other heads of expenditure.

4. Shifting or extension of villages:

Under this measure, as many as 21 villages in the Hassan District and a similar number of villages in the Kadur District are being dealt with by either wholly shifting the villages to more elevated and healthier localities or extensions being made to relieve congestion. A list showing the names of villages so dealt with is hereto appended.

5. Establishment of Dispensaries:

Proposals for establishment of stationary dispensaries in the marginally noted villages in the Kadur District are pending disposal before Government. Suitable buildings have been selected for location of dispensaries at Balur, Aldur and Attigundi (the two latter villages providing accommodation free). Two itenerant dispensaries have been sanctioned to the Hassan District tentatively for one year in Government Order No.184-9/Med.38-13-10,dated 19th July 1915 and will start work in due course.

1.Balur, 2.Aldur, 3.Santaveri, 4. Attigundi & 5.Lukvalli.

6. Promotion of Vaccination:

Three candidates from each of the Districts of Hassan and Kadur were trained in Vaccination and employed on Rs. 12 plus 2/- per mensem. Prior to the training of these candidates, one additional vaccinator was emplcyed for Saklespur in February 1915 but his services were dispensed with from the beginning of September 1915 as he absented himself without permission. The number of cases done by the Special Vaccinators till the end of December 1915 is 1139 and 244 respectively in the Hassan and Kadur Districts.

7. Increased aid by Midwives:

Out of the four candidates sent for training from the Hassan District one was withdrawn in April 1915 and the re-

remaining three continued to undergo training. One more candidate has been selected by the Committee and steps are being taken to send her for training as soon as accommodation becomes available for her. Four candidates were also deputed for training from the Kadur District during the current year. No special Midwife has yet been emplcy in the Hassan District and out of the three additional midwifes sanctioned for the Kadur District, two have been employed and are working in Aldur and Lukvalli. The othe one for Hariharpur was lately appointed by the Senior Surgeon and she is expected to join duty shortly. Two midwives at Aldur and Lakvalli have till now attended to 20 and 12 labor cases respectively.

8. Expansion of Communication:

The enclosed statement No.IV shows the number of works actually undertaken under this head. Besides these sanctioned works, a number of applications are being received from the villagers offering contributions and praying for the improvement of their village roads. The petitions regarding the marginally noted road works in the Kadur District are pending with the Overseers for collecting contribution and submission of estimates therefor.

1. Improvement to a road to connedt Joldhal,Ninganakatte & other -- villages.
2. ------do--------do------do--- Herekolale & chikkolale villages.
3. -------do--------do------do--- Aldur,Huvalli & other villages.

9. Attraction to Settlers:

In the Bechirak village of Shantipur in the Tarikere Taluk 12 families have come and settled themselves and in the neighbourhood of Chikmagalur Town, between Govnahalli and Mathavara, some 30 families from the Vellore District have recently come and erected sheds known as Kusuvalakki sheds. One D.P.W. Road Contractor, Lingamaistry has come forward to bring in new families from Tumkur District and settle them in the new village of Lingenahalli. Steps are being taken to provide these new settlers with building sites and ~~materials~~ materials as also good drinking water

and other facilities.

10. Distribution of Quinine:

Sixty thousand tablets of 5 grs each were got during current half year at a cost of Rs.840/-and are being freely distributed in all the Malnad villages of both Hassan and Kadur Districts.

11. Special Grant to Institutions:

A special grant of Rs.30/- per mensem sanctioned to Mrs. Slater's Dispensary for women and children at Chikmagalur was continued during the current half year. A sum of Rs. 150/- has till now been paid to her from 1st July to the end of November 1915.

12. Disemination of Knowledge on Sanitary matters

Two pamphlets viz., one on " Small-pox and Vaccination " and the other on " Quinine in the treatment of Malaria " brought out by Mr. M.G. Samuel, were got printed both in English and Kannada and 800 copies of each of them were distributed throughout the Malnad tracts of the Districts of Hassan and Kadur.

Secretary 40-15-15

From

R. Nanaswamy Rao, Esquire,
Special Revenue Officer, M.I.Scheme,
Kadur and Hassan Districts, Chikmagalur:

To

D.M.Narasinga Rao, Esq.,B.A., B.L.,
Secretary to the Government of Mysore,
G e n e r a l Department, Bangalore

Sir,

With reference to Government Order No.8394-7/San.40-15-13 dated 15th May 1916 and subsequent reminder No.212,dated 10th July 1916, calling for explanation as to the circumstances und which excess expenditure was incurred on account of the well-work at Chatmakki ~~xk~~ over the sanctioned estimate as shown in the progress report for the half year ending 31st December 191 I have the honor to submit that at the time of submitting the report above referred to, only an expenditure of Rs.52-4-0 had been incurred against the sanctioned estimate of Rs.306/- and as such there was no expenditure in excess of the estimate on account of the well in question. The figure shown in the statement accompanying the report was apparently a clerical error.

2. As regards the observation made in para 2 of the Government Proceedings under reference, I beg to state that information contained in the report regarding (i) clearance of rank vegetation and (ii) drainage related only to works sanctioned by the Committees for which money was spent out of Government funds. As it was, however, decided by the Committees that --- these works should be got done by inducing the villagers to undertake them without any cost to Government, several works of this nature were accordingly got done by the ryots themselves. The figures given in the statements do not therefore indicate the actual progress of these works. The extent to which progress was achieved in respect of clearance of rank vegetation by the villagers is given in the last sentence of para 1 of

Secretary to the Govt: of Mysore
General Department, Bangalore

Dated 18th

Despatched 18th July 1916

Received

General No. 2
No:

Enclosure No.

Submits explanation regarding several observations contained in the Govt. order No. 8394-7, dated Sam: 40-15-13 the 15th. May 1916. viz respect of the progress of works under the M.I. Scheme in the Hassan and Kadur Districts during the half year ending 31st. December 1915.

of the report.

3. Regarding the observation that the progress of well works was not satisfactory, I beg to state that most of the works sanctioned during the half year could not be started earlier than in the beginning of December 1915 as a large -- quantity of water due to percolation is generally met with when wells are attempted to be sunk immediately after the monsoons.

4. With regard to the observation in paras 4 and 5 of the Government Order about the omission of information under many of the specified heads, I beg to state that information relating to all the important measures was furnished in the report and as the progress achieved or action taken by the Committees regarding the other items of activity was not -- appreciable during the period, the same was not dilated upon with a view to make the report brief. In furnishing the report for the succeeding half year, however, due attention will be paid to the remarks of Government and all available information under the specified heads will be furnished in full.

I have the honor to be,

Sir,

Your most obedient servant,

Special Revenue Officer,

M.I.S.Kadur & Hassan Dists.

The Special Revenue Officer

Mr. J. Kaom & Hazara Dist.

Date of issue 1.8.16

Signed by Mr B. Subba Rao

His letter No. 3 dated the 18th July 1916 has the honour to observe that in the statement showing the progress of well works in the Kaom District during the half year ended 31st December 1915, an expenditure of Rs 854-14-2 is shown for well-works at Chatmukki, against the sanctioned estimate of Rs 306/-. It is now reported that the expenditure was only Rs 52-4-0. This sum is

over.

To

D.M.Narasinga Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
G e n e r a l Department, Bangalore:

Sir,

With reference to your docket No.977/San.40-15-16, dated 31st July 1916, returning for necessary corrections, etc., the statement of the progress of well works in the Kadur District, during the half year ending 31st December 1915, I have the honor to re-submit the statement after effecting due corrections therein. A fresh copy of the statement has also been prepared and submitted, herewith, as the one question contains too many corrections.

I have the honor to be,

Sir,

Your most obedient servant,

Special Revenue Officer,
M.I.S.Kadur & Hassan Dists.
